

Quality PROclean® Gasolines Selling Statement Graphic

The Quality PROclean® Gasolines (QPG) Selling Statement graphic must be used with the accompanying brand logo and never alone. It must appear only in the approved positions and size relationships that are shown in this document. The QPG Selling Statement should not be recreated in any way other than the way it is presented here.

The outer dotted line represents the "1X" minimum clear space boundary or distance to the edge of each logo. Clear space is the minimum area to be kept free of graphics, logos, type, lines or any other elements around the logo.

No other piece of art or layout edge can come within this area. The "1X" measurement relates to the height of the uppercase "P" in PROclean®.

All marketing communications using the QPG Selling Statement graphic should be reviewed by the Legal department for content. The ® symbol should be used in relation to the Phillips 66 brand logo as it is a registered logo. For additional information, contact Barbara Alexander (ETN 639-5425 or Terry Hunt (ETN 639-2103).

Alternate Graphic Configurations

The above logo configuration, which appears as three lines to the right of the Phillips 66 brand logo, is the preferred configuration to be used in most instances.

As shown below, there are three other options available for use due to layout constraints. Each of which are shown on white or reversed out of black.

The approved configurations on this page are intended to apply to most situations. The size ratio between the brand logo and the words of the QPG Selling Statement graphic are scalable in some instances. For example, on a billboard, the brand logo can be larger in relationship to the QPG Selling Statement graphic as long as the "1X" clear space is maintained between the brand logo and the QPG Selling Statement graphic (see example).

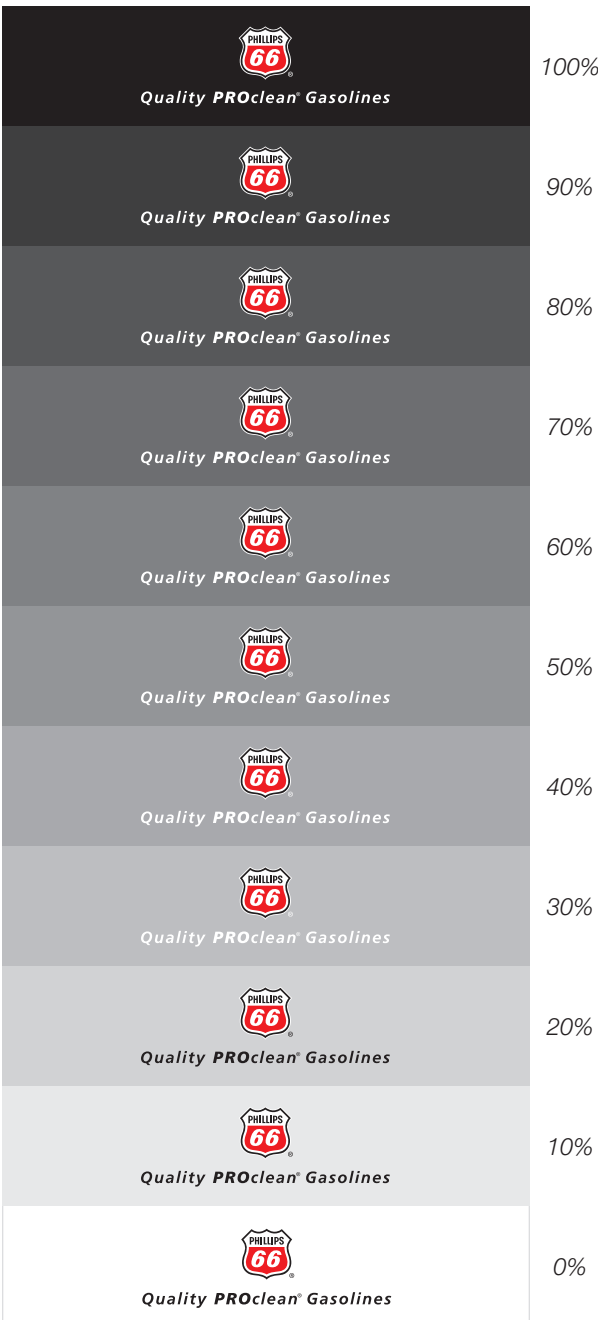

Correct Color Usage on Solid Backgrounds

Correct color usage depends upon proper contrast between the brand and QPG Selling Statement graphic and the background color density or value on which it appears.

The brand and QPG Selling Statement graphic can be placed on any background, if there is enough contrast. The chart below indicates appropriate background contrast.

Photographs can be used as a background element, if the photo does not hinder the readability of the brand and QPG Selling Statement graphic.

Correct Usage for Each Graphic Option

There are four different configurations of how the QPG Selling Statement graphic appears with the brand logo. Below is a guide which can be used to determine the appropriate configuration to choose.
